

Dear Judiciary Committee:

**I am opposed to SB 16**, An Act Addressing Gun Violence and Juvenile Crime, especially the section making "ghost guns" and redefining "assault weapons". What makes you think further banning these will have an effect on the uptick in violent crime, most of which is being committed by juveniles that you keep releasing back out? I don't see them using these so called "ghost guns" or "assault weapons".

I am also amused by the section on allowing law enforcement to ask for a permit without any suspicion of a crime. Hasn't this been defeated in your chambers time and time again, including by representatives who represent minorities? This is profiling.

Please do not pass SB 16

Yours truly,

*Mark T. Mrynski*
